Course: PS265 A: Quant. Reasoning in Soc. Sci. (CRN 10162; enrollment: 9)
Instructor: Benjamin Toll
Semester: Spring 2025

Comments for Question 1: Explain your rating.

1. Dr. Toll is a fair grader. He frequently makes use of his office hours to help his students as they may struggle with the class. He also does an excellent job with course delivery as he essentially takes a program and a subject we typically aren't interacting with, and breaks it down to be digestible for us.
2. Course was straight to the point & instructor was very educated in course. Content was a bit difficult at time
3. Everything in the class was very satisfied because the way Dr.Toll taught us it was perfect

Comments for Question 2: Explain your rating.

1. This is a very organized and methodical class. You have to spend a great deal of time with the foundations and essentially 'riding with the training wheels' before being ready to do the leg work. This class recognizes that. I think that the way the class is currently structured is that way it should be continued.
2. Assignments built off one another, making the course flow smoothly
3. very very good way to run the class because it just build off what you learn
